H.W. Wilson Announces the New Edition of *Current Biography Cumulated Index (1940-2025)*

The *Current Biography Cumulated Index (1940-2025)* makes it easy to find biographies of individuals profiled from the first edition published in 1940. With both a name index and an index by profession, this time-saving tool will quickly direct researchers to the Yearbook in which the biography appears. A must-have source for all subscribers to *Current Biography*!

This edition covers the years from 1940 through 2025, and cumulates and supercedes the previous edition, *Current Biography Cumulated Index, 1940-2021*. The reader will need to only consult this index in order to locate a name that appeared in the previous 86 volumes of *Current Biography*.

The dates after the names indicate the monthly issue(s) and yearbooks containing the biographies and obituaries.

In addition to the alphabetical name index, this edition includes a Profession Index. The Profession Index lists the nearly 52,234 subjects by 902 professions—from AIDS activists to Zoologists. A subject is listed under as many professions as their biography profiles.

Current Biography Cumulated Index (1940-2025)
